Directors

Mikayla Burtch: Director

Mikayla is a sophomore Industrial Design student, RA in East Hall, and milkshake connoisseur. Previously in SoDA, she has acted in Jekyll and Hyde, and is currently a member on the Thespian council as Master of the Masques. This is her first time directing, and will have the knowledge of how to set up a rehearsal over Zoom permanently etched into her brain. Besides acting, she also enjoys drawing, streaming, Minecraft, and Dungeons & Dragons.

“You’re rearranging deck chairs on the Titanic, my friend.”
- Justin McElroy

Sophie VanAntwerp: Assistant Director, Girl, Witch 2

Sophie is an assistant director, Master of the House, and tired. Normally, she’s behind the audience, bringing the sound, but this year, she’s taking the advice from her father and making the actors cry. She’s been involved in theater for years, playing the funny character or messing around in the sound booth. Some fun facts about her: she knows every word to Brave and Mamma Mia, and will willingly inject kombucha into her veins. Thank you for coming to my TED Talk.

“Oops.”
- me after every decision I have ever made.

Emily Cole: Assistant Director, Gretel, Crab Person 2

Hello all! Thank you for joining us for this first of its kind SODA performance. My name is Moxie (aka Emily) and I have been honored to be an assistant director for this delightful show. It’s been a wild time navigating this new digital stage, but as the saying goes, “the show must go on”. I hope you enjoy our digitized performance from the comfort of wherever you are.

“The time takes the time the time takes.”

Mykah Schafer: Technical Director

Hey, I’m Mykah Schafer, a sophomore in biomedical Engineering. I’m the current Master of Shadows for SoDA. I got into theatre in 8th grade as the sound kid, and have been a techie since. I typically spend my time talking about or playing DnD, and sleeping.

Cast

Anthony Sakowski: Narrator 1, Enchantress, Prince 3, Woodcutter

Hello! I'm Anthony, a second-year student here at LTU, and currently working toward a degree in Computer Engineering. While I have a bit of experience acting on stage, doing so over the computer this semester has been interesting to say the least. Regardless, I know that the Brothers Grimm Spectaculathon will still be a great show for everyone watching!

David Neph: Narrator 2, The Devil, Prince, Hansel, Dwarf 2, Raven

Also known as Lord of the Geese. An architectural engineering major that has been at this school for too many years. Thankfully, he'll graduate soon. He does have plans of sticking around SODA after he graduates, though, so you might see more of him. Has a history of being in plays since childhood. Recently became a goose enthusiast.

Ryan Moreno: Actor, Chet Dobray, Johannes

Ryan has that smooth, deep voice we all wish we had. He's done many productions at SoDA, but sadly the writer of this bio has never seen those shows, so I guess they're not worth listing.

"Ryan, please send me your bio tonight"

- Rachel Nagy, 3/29/2021

"Just realized I forgot to send in a bio again. Whoops. Hope it's good!" - Ryan Moreno, 3/30/2021

Cooper Julson: Dirt Merchant, Prince 2, Frog Prince, Dwarf 1, King 2

Hi! My name is Cooper Julson and I'm a Computer Science major here at Lawrence Tech. While this is my first year in SODA, I have been in roughly 6 productions at my high school and one year of stage crew under my belt. I hope that you enjoy this wacky show and all of these wacky people that I had the pleasure of being friends with!

Cast (cont.)

John Perkin: Rumpelstiltskin, Father, Talking Fish, King, The Wolf

Howdy, I'm John Perkin. I'm a game design major / graphic design minor with an interest in storytelling and acting. I was in two plays in high school, the latter being (unfortunately) cancelled by covid.

"Hello. You know who I am. I am the smartest person."

Rachel Nagy: Rapunzel, Witch, Mother, Snow White, Little Red

Hey! I'm Rachel, a sophomore Architectural Engineering major. I have been acting since middle school, and I'm happy to finally be back on the (virtual) stage to bring this show to you! I'm also Master of the Realm, SoDA's PR chair. When I am procrastinating on making this lovely playbill you are currently reading, I love video games, tabletop games, drawing, painting, sculpting, crocheting, streaming, sewing, and discovering even more hobbies that I will inevitably drop because I don't have time for them.

"Don't Trust Your Reflection" - Zote the Mighty, Precept XXVI

Docker Peichel: Audience Member, Crab Person 2

Docker is a senior studying Robotics Engineering. It's his final semester at LTU which means it is also his final semester as an active member of SoDA. As bitter-sweet as it is, he will probably be back to help out with construction and watch future productions. While not overwhelming himself with school, work, and research opportunities, he enjoys role-playing games, board games, video games, and just being a nerd.

"Am I acting on stage, or can I finally drop the act here? I've always known I felt like a crab person!"

Sydney Schmid: Girl w/o Hands, Fishergirl, Princess, Queen, Plinkie Plie, Cinderella

Guttentag, my name is Syndey Schmid, and I'm majoring in Robotics Engineering. I have been performing on stage since I was 3 years old, mainly dancing. I have performed in Cincinnati Ballet's Nutcracker, Cinderella, Thoroughly Modern Millie, Romeo and Juliet, Addams Family, Two Gentlemen of Verona, and The Little Mermaid, Much Ado About Nothing, Rumors, Murder Me Always, and Lend Me a Tenor. Some fun facts about me: besides performing and robotics, I love to write stories, read books, watch Youtube, sing Karaoke, hang out with my friends, and go on nature hikes. The most shocking fact is that I am visually impaired (legally blind), with the impairment, Stargardts.

"Impairments or flaws do not define us, but empowers us"

Crew Roles

Mykah Schafer	Technical Director
Sophie Van Antwerp	Tech Crew
Docker Peichel	Tech Crew
Erika Auner	Event Coordinator

Erika Auner. Event Coordinator

Hello all! Erika is a third year biomedical engineering major. She is currently planning on taking the MCAT this summer and hopes to be enrolled in a medical school Fall 2022. She enjoys skiing, singing, and making sourdough bread. Erika is the Master of the Dance which means that she is the advocate for the cast as well as plans social events (COVID permitting) throughout the year. She hopes that you enjoy the show from your own room that is hopefully not an isolated tower with no doors or stairs.

Special Thanks

(In no particular order)

Scott Lehman, and the rest of LTU eLearning Services, for facilitating our webinar presentations and the tech support to keep all of the logistics for those events in line

Paul Jaussen, SODA's Faculty Adviser, for keeping us on the straight and narrow

Brandé Oliver, LTU's Coordinator of Advancement Services, for facilitating the creation of our new donations page

Dean Bauer and the College of Arts and Science, for their constant support over the years, in this case providing the letter of introduction supporting our request to use the university's webinar license
